## Parral Fight Serious

### DANGER GROWING THAT NATIVES OF MEXICO WILL RISE

Anxiety Felt for U. S. Officer  
in Hostile District With  
Small Force

### CONGRESS TALKING OF EMBARGO ON MUNITIONS

Senate Chairman of Foreign  
Relations Committee Hints  
at Withdrawal

[Associated Press by Federal Wireles]

EL PASO, Texas, April 14.—That more than 100 civilians and Carranza soldiers were killed at Parral yesterday during the fight between the townspeople and the U. S. column is the report that reached here today, adding to the disquietude felt over the threat of an uprising against the small and isolated detachment of American troops.

The army officers are hard at work strengthening their line of communications and preparing for a possible surprise attack. Scouts are watching Gen. Gomez and his force to see that they make no overt hostile move.

### "SITUATION UNCHANGED," SECRETARY BAKER SAYS

WASHINGTON, D. C., April 14.—After the cabinet meeting today, Secretary of War Baker said that the Mexican situation is "unchanged."

Anxiety is felt in the war department as to the whereabouts of Maj. Frank Tompkins of the 13th Cavalry, who with a small force is operating in a district teeming with anti-American guerrillas and hostile citizens.

There is an undertone of sentiment in Congress, chiefly among the Republicans, for the enforcement of a complete embargo on munitions from the United States to Mexico, as it is believed these might be used at any time against the American soldiers.

Senator Stone, chairman of the committee on foreign relations, said today that "the problem is how long it is wise to keep our force in Mexico. I have never believed we would capture Villa."

### U. S. AUTO SUPPLY IS ATTACKED BY GUERRILLAS

HEADQUARTERS U. S. EXPEDITION (by aeroplane to Chihuahua).—Forty mounted men, believed to be Villistas, attacked a U. S. automobile supply train on Tuesday night. One Villista was killed. The fight took place several miles in the rear of Gen. Pershing's force, where an escort was guarding the moving camp.

## HOUSE NAMES ITS CONFEREES UPON THE SUGAR BILL

[Special Star-Bulletin Cable]

WASHINGTON, D. C., April 14.—The house today sent the sugar bill, amended by the senate to end the tariff period May 1, 1920, to the conference committee, naming as its three conferees Chairman Kitchin of the ways and means committee and Congressmen R. W. Fordney of Michigan, Republican.

The meetings of the two sets of conferees begin at an early date and a hard fight is expected, each side wishing to get its form of the bill through.

### IT'S BABY WEEK FOR CHAMPION JESS WILLARD

[Associated Press by Federal Wireles]  
CHICAGO, Ill., April 14.—The wife of Jess Willard, heavyweight pugilistic champion of the world, today gave birth to an eight-pound boy.

The plant of the American Colgar Co. at Troy, N. Y., was destroyed by fire at a loss of from \$100,000 to \$125,000.

The new superdreadnought Nevada, launched at the Bethlehem Steel yard

## CALIFORNIA'S GOVERNOR NOW WOULD PLACATE G. O. P. FORCES

[Associated Press by Federal Wireles]

SAN FRANCISCO, Cal., April 14.—Governor Hiram Johnson of California, ex-running mate of Theodore Roosevelt on the Progressive ticket, has sent to a group of candidates for the Republican national convention a letter, which says in part:

"I wish you were within the party—we would have an overwhelming success. I shall continue in the Progressive party as long as the party lasts or until what its followers hope for—joint action of the Progressives and Republicans in June."

The letter was sent to the group of candidates calling themselves the United Republicans.

## DIVIDEND FOR MOUNTAIN KING

Mountain King has declared a dividend. John Watt received a cablegram today from Managing Director McMillan at San Francisco, as follows:

"Dividend three per cent May 15 on stock on record of May 1."

The dividend will amount to \$18,000, the capital stock being \$600,000. Dunsen & Company received private advices yesterday to the same effect. The Honolulu shareholders are much encouraged by the news, as they have stood by the company for many years.

### SUPERVISOR HATCH ON EMERGENCY HOSPITAL

Supervisor Hatch made his maiden speech last night. He spoke in favor of the emergency hospital ordinance and its amendments. He said, in part: "I was called on in Monday's issue of the morning paper to straighten out the emergency hospital tangle by voting against the ordinance putting the hospital and physician under the authority of the sheriff, and leaving them under the jurisdiction of the health and sanitation committee and the city and county physician. I fail to see how the emergency physician's work is a matter of health and sanitation. It would be very unwise to put the hospital under the control of the city and county physician and only tend to unnecessary red tape. More properly, it is a police matter."

The ordinance passed second reading with a few minor amendments, and was ordered printed.

### FIRST WEDDING HELD IN MISSION BUILDING

The first wedding to be held in the new Mission Memorial on King street occurred last Wednesday afternoon when Rufe O. Lars and Miss Pauline Mannab, both Filipinos, were married by Rev. Frank S. Scudder, superintendent of the Japanese work of the church. The ceremony was

## FORTUNE THROWN OVERBOARD AIDS IDE MARU'S FIGHT

To Weather Furious Galés,  
Japanese Steamer Tosses  
Out Valuable Cargo

### WAR SUPPLIES WORTH MUCH MORE ARE SAVED

Shipping Men Estimate Vessel's  
Lading As at Least  
\$5,000,000

Further details of the terrible experience encountered by the captain and crew of the Japanese freight steamer Ide Maru, which limped into port Wednesday afternoon with a jury rudder, after 37 days of wearing toll beating down to this port from the Great Circle route, became known today.

Cargo worth yen 125,000 (\$62,500 gold) was thrown overboard by Capt. T. Uchiyama. It weighed 123 tons and included powder, empty cartridges and heavy machinery. This had to be thrown overboard from forward hold No. 1 to get the steamer up by the head so that her jury rudder could steer her.

The fingers of both the steamer's master and the crew were partially frozen in the gale and snowstorm during which the rudder carried away. It was feared for a time that they would lose their finger tips, but on getting further south their hands regained normal condition.

That the value of the cargo is well above \$5,000,000 is declared by shipping men here. It includes woolen clothing for the Russian army, munitions and war supplies of every kind, knocked-down steel freight cars, heavy machinery, thousands of bales of cotton, many tons of steel plates and other manufactured goods of American make.

This morning the steamer's rudder was unshipped at the inter-island coal slip, where the Ide is berthed. This afternoon two Lloyd's surveyors, E. Kosky and John Muirhead, of the Honolulu firm of Kosky and Muirhead, are making a more detailed survey to determine if in their opinion it will be necessary for her to go into drydock for a new rudder.

Yesterday's survey disclosed that the middle part of the rudder is gone. The upper and lower portions are apparently intact, but the middle section has carried clean away, as if a giant hand had yanked it from the rudder post. The center gudgeon is damaged and the two bottom pintles are bent. An examination by a Hawaiian diver named "Jack" disclosed.

That each day's delay is costing the steamer's owner \$200 is estimated by Capt. Uchiyama, who says that if it is 10 days before the voyage to Vladivostok can be resumed the loss will be \$20,000. The Ide was practically given up for lost in Tacoma, the port from which she steamed on February 25. She will have to comply with the Seamen's Act here before she can clear after repairs are completed.

## HUGE TRACTORS TO HAUL HEAVY FIELD ORDNANCE

Three Caterpillar Engines Now  
on Way Here Will Be Used  
at Schofield

Three big tractor engines of the Holt Caterpillar type, consigned to the 1st Field Artillery at Schofield Barracks, have been shipped from the factory at Peoria, Illinois, and are expected to arrive here within a few days.

The tractors will be used to haul heavy field artillery, taking the place of horses, which have always been used on the islands, and are purchased with the idea of use in either peace or war.

As many as 16 horses have at times been found necessary to draw heavy artillery through the mud, and while the caterpillars are not able to develop as much speed as horses, they have the advantage of going over practically any sort of country with their loads.

In peace times they will be used in field drills and maneuvers. The depot here has several six-inch field pieces which will be hauled by the big tractors.

Five similar motor tractors and eight motor trucks are under contract for use by one of the 47-inch gun batteries of the 5th Field Artillery, Fort Sill, Oklahoma.

A spectacular fire caused damage estimated at \$150,000 to the Lister & Co. Chemical Works at Newark, N. J.

The ungal reduction of 50 cents a ton in the price of anthracite was not made on April 1 in New York City.

## U. S. TO DEMAND THAT GERMANY MAKE GOOD ON HER ASSURANCES

### MAKE GOVERNOR ISSUE IN WARM BOURBON FIGHT

McCandless Wing Members  
Concentrate Attacks on  
Mr. Pinkham

### PRIMARY ELECTION TO DECIDE IT TOMORROW

Both Sides Predict Victory for  
Their "States" for Various  
Party Offices

Predictions of victory are made by both Democratic factions which tomorrow will hold their territory-wide direct primary election of delegates to the national convention and other party officers.

The "McCandless faction" and the "Pinkham faction," as they style each other, are closing tonight one of the bitterest campaigns in the history of the islands.

The McCandless faction has made Governor Pinkham the issue from start to finish. Anybody who favored the governor, who endorsed him, who works with him in politics, or who is credited with a leaning toward the governor's official friends and associates, has been hammered from taps to breakfast by the McCandless faction's speakers.

"We have declared from the start that we are against the governor, politically, and anybody who ran on the Pinkham ticket we would fight," declared Territorial Chairman Pacheco today.

The McCandless faction speakers are particularly vigorous in their denunciation of the public officials and territorial employees taking part in this campaign.

W. J. Coelho, erstwhile Republican politician, now an employee of the land office, is said to be on Maui the latter part of this week doing politics on behalf of the Pinkham state. The anti-Pinkham speakers are meeting great capital of this, also of the fact that employees of the department of public works are booming the gubernatorial state, and that some of Sheriff Rose's policemen are also working for this ticket. Rose is said to be "on the fence," but some of his men, particularly Police Captain Kamahu, are charged with persistent activity on behalf of the Pinkham state.

Last night a rousing meeting was held in the Kakaako precinct at which the McCandless people claim a straight endorsement of their ticket and their cause was made. Tonight there will

(Continued on page three)

## FINISH SURVEYS OF RAILROAD TO ORDNANCE DEPOT

Army Engineers Outline Route  
to Connect With Local Track;  
Site Has Been Approved

Surveys of the railroad line which will be run to the proposed Hawaiian ordinance depot at Fort Shafter have just been completed by army engineers, and approval of the site chosen by local officers has been made at army headquarters.

The railroad, which will be about a mile long, will connect with the line of the Oahu railway back of the slaughter house, and it is also planned in time to connect with the Rapid Transit Company's switch.

As the line will be narrow gauge, corresponding with that of the Oahu Railway, connection with the street car system will require the establishment of a third-rail system along the switch.

As stated in the Star-Bulletin, at the time the announcement was made that the proposed depot had been approved by the president, the big plant will cost approximately \$300,000, and will be located about a mile from the present buildings at Shafter, toward town, and mauka.

### POSTPONE TALK OF DOCTOR'S TESTIMONY

Postponement in the case of Lilipoi, Inani vs. Kalamakani, petition to perpetuate testimony, was made until next Wednesday morning at 9 o'clock when the case was brought up for Judge Wilkison's court today. Judge

### GERMAN OFFICIAL CABLEGRAMS

GERMAN HEADQUARTERS, April 13.—The weather conditions were unfavorable for observations yesterday and hampered fighting activity. But on both sides of the Meuse and in the Woivre plain and on the Cote, southwest of Verdun, artillery were lively and active. Southeast of Albert, a German patrol imprisoned 17 men in an English trench. A French gas attack in the district of Pusseleine, northeast of Compeigne, was without result.

East front, south of Narocz lake, Russian artillery fire yesterday afternoon was increased. Each of Baranovitshki the advancing hostile detachments were repulsed by German sentries.

## KIANG SI HAS JOINED SIDES AGAINST YUAN

Seventh Province Declares Its  
Independence; Two Others  
May Follow Suit

(Special Cable to Liberty News)

SHANGHAI, April 14.—Kiang Si province has declared independence of Yuan Shih-kai. This makes the seventh province of China to announce independence. Kiang Si is one of the wealthy provinces of south China, and is situated between Chi-Kiang and Hunan, both independent.

Fukien is the only province south of the Yangtze Kiang river which has not declared independence. The city of Nang Kiang, which has been a revolutionary stronghold, was also expected to be taken by the republicans. The forces south of the Yangtze Kiang will now make an effort to secure the independence of Kiang Su and Hupeh.

## CHINESE TRY TO RESTORE ORDER

[Associated Press by Federal Wireles]  
AMOY, China, April 14.—Four gunboats and two transports arrived here today. Troops are being despatched into the interior.

## TO DISCIPLINE H. S. ATTORNEY IN PROBE CASE

House Judiciary Committee  
Finds Marshall Guilty  
of Contempt

WASHINGTON, D. C., April 14.—The house judiciary committee today reported that United States Attorney Marshall of New York is guilty of contempt in declining to make public certain information connected with the prosecution of Congressman Buchanan and others on the charge of being connected with Labor's National Police Council, a pro-German organization.

WASHINGTON, D. C., March 24.—Hearings on Representative Buchanan's impeachment charges against United States Attorney Marshall at New York were resumed today before the house judiciary committee.

Four witnesses were questioned as to conversations with Assistant Attorney Horshenstien of Mr. Marshall's office about indictments sought for perjury in connection with the Oliver Osborne case in New York.

The committee failed to end the hearing and is expected to resume next week. There was evident a desire by the committee to procure the minutes of the federal grand jury in New York, which returned indictments in the Ray Tanser case. These minutes were refused the committee at a recent session in New York by Mr. Marshall, acting on instructions of Attorney General Gregory.

### GREAT MACHINE BIRD TO CARRY 34 BEING BUILT FOR BRITISH

BUFFALO, N. Y.—A manufacturer of engines for aeroplanes has received from a North Tonawanda boat maker instructions to construct the body of what is said to be the largest hydroaeroplane in the world.

## NOTE BASED ON EVIDENCE IN SUSSEX AND OTHER CASES TO BE SENT BERLIN IN 48 HOURS

NO TIME LIMIT ATTACHED AND NOTHING IN NATURE OF  
ULTIMATUM CONTEMPLATED, STATE DEPARTMENT  
INSISTS—TEUTONS RENEW ATTACK ON WEST, BUT LESS  
FIERCELY—RUSSIANS LOSE FIGHT IN ARMENIA

[Associated Press Service by Federal Wireles]

WASHINGTON, D. C., April 14.—After a prolonged cabinet meeting today the developments definitely forecast a demand upon Germany for remedial action in the case of the sinking of the British channel steamer Sussex and other vessels declared to have been sunk in violation both of international law and of German assurances.

The president and his cabinet held a long session today, it being announced afterwards that a communication to Germany will probably go forward within 48 hours.

One reason for the delay is that affidavits have just arrived at New York from Europe which are considered an essential part of the evidence that the merchant vessels were unlawfully sunk, and state department advisers believe that the case would be incomplete without them. These affidavits contend that not only the Sussex but other merchant vessels were sunk in violation of Germany's promises.

With this statement of fact, sent on to Germany, there will be a demand that Germany show evidence of her good faith in making good her assurances that no unarmed merchant vessel, not attempting to flee, would be attacked without warning, and that every precaution would be taken to safeguard the lives of passengers and crew. Germany will also be reminded of her assurances that she would disavow any act in contravention of these promises, and would punish any submarine commander who violated corresponding orders.

Nothing in the nature of a time limit is attached to the note now contemplated.

## U. S. RIFLES TO BE FURNISHED NAVAL MILITIA

A meeting of the Naval Militia commission is called for this afternoon at 4 o'clock in the office of A. Gartley in the Brewer Block on Fort street. Commander Gartley's resignation has not yet been acted upon by the governor, and he is expected to resign. The other members of the commission are Joseph E. Sheedy, R. E. Lambert and David Kalamakani.

While he held a commission as paymaster of the Naval Militia, J. Morton Riggs was a member of this commission, and the vacancy caused by his resignation has not yet been filled by the governor. It is likely that Mr. Riggs' successor, Paymaster E. D. Bishop, N. M. H., will be appointed to fill his place in accordance with provisions of the naval militia act under which the commission was established.

In pursuance of orders received from the war department at the request of the navy department, an outfit of rifles is to be furnished to the local naval militiamen by the ordinance department of the Hawaiian Department, and the reimbursement therefor adjusted at Washington. These rifles are now at Fort Kamehameha, but will be brought up this afternoon so that infantry drill under arms can be proceeded with.

### FISHER'S LETTER ON UTILITIES' PAY STILL ON STAINBACK'S DESK

Auditor J. H. Fisher's letter dated April 10, requesting an opinion as to whether it is legal to pay Charles R. Forbes for services as chairman of the public utilities commission while he is presiding at one-man meetings is still awaiting a reply from the attorney general.

"I haven't had time to look into it," was his only reply when asked if he had looked into the question for Mr. Fisher. "Court matters have kept me busy."

### THREE SISTERS MARRIED TO THREE BROTHERS

SAN FRANCISCO, Cal.—The Bohn-Gregson families completed a matrimonial soiree when Edward Bohn and Bertha Gregson were wedded. Two brothers of Edward Bohn are already married to two sisters of Bertha Gregson. John Bohn and Rose Gregson were married in October 1912, and Will Bohn and Mabel Gregson were married in February, 1913.

Mr. James Kay Caird, chief backer of the Shackleton Antarctic expedition, died in Dundee.

The American Locomotive Co. received an order for six engines from the Chinese Locomotive Railway. The engines are to be delivered in 1917.

### PERSIANS JOIN TURKS IN DEFEATING RUSSIANS

BERLIN, Germany, April 14.—A force of Persians and Turks have won an important victory over a force of three Russian cavalry regiments in Persian Armenia.

### GERMANY CLAIMS MANY SHIPS SENT TO BOTTOM

BERLIN, Germany, April 14.—The German admiralty announces that during the month of March 80 enemy merchantmen were sunk by Teuton submarines or sent to the bottom as the result of mines.

### ANOTHER STEAMER SUNK

QUEENSTOWN, Ireland, April 14.—The captain and 11 of the crew of the British steamer Iverlyon landed here today, their vessel having been sunk. One of the crew, William Loss, is an American. In another boat which put off from the vessel after it had been blown up with explosive were 11 men, all of whom are still missing.

### BRITISH BEAT TURKS

LONDON, England, April 14.—In a sharp battle between the British and the Turks in Mesopotamia, the British drove their Ottoman enemy from one to three miles back on the south bank of the Tigris river.

### GERMANS LESS ACTIVE

[Associated Press by Federal Wireles]  
PARIS, France, April 14.—The Germans today violently bombarded French positions near Hill 304, west of the Meuse, and east of the Meuse there was a renewal of Teuton activity, but not so heavy as in the previous attacks.

### LIVELY CANNONADING

[Associated Press by Federal Wireles]  
BERLIN, Germany, April 14.—Lively artillery fighting is taking place today along the Meuse.

### SCOTT CASE NEARS END OF 17 YEARS' JOURNEY

Having followed along the winding path of legal procedure for the last 17 years, heard in various courts here and on other islands, and been the subject of much interest, the case of H. F. Scott, an equity suit, is now nearing the end of its journey.

Save for minor arguments which have arisen among the attorneys themselves in regard to legal fees, the matter was considered finished this morning at the end of a trial before Judge Grant, and is now submitted to the court.
